Chick N Pastil: Operational & Business Process Interview

Good day!

We are 3rd-year Computer Science students (**BSCS - 3A**) from **Dr. Yanga's Colleges, Inc.**, currently conducting a System Development Project in **Business Process Automation (BPA).**

This questionnaire is designed to gather key information regarding the daily operations, inventory management, sales tracking, and workflow efficiency of **Chick N Pastil**. The insights gathered from this interview will be used strictly for our academic research and system development project.

Completing this questionnaire will take approximately 25 to 30 minutes. Please answer the questions as thoroughly as possible, as your insights will directly inform the design of the automated system. We sincerely appreciate your time and willingness to assist us!

Data Privacy Notice

In compliance with the **Data Privacy Act of 2012 (R.A. 10173)**, we are committed to protecting your personal and business information. All data collected through this form will be used solely for the stated system development and academic research purposes.

Your responses will be treated with strict confidentiality and will not be shared with unauthorized third parties. By submitting this form, you consent to the collection and processing of your provided operational data for this study.

THANK YOU SO MUCH FOR YOUR TIME AND COOPERATION!

Central Kitchen & Procurement

How do you decide how much shredded chicken, pastil oil, and rice to cook each day? Is there a set daily cooking schedule?

We decided base on our Sale Report and Location Base. We are cooking Daily to maintain Freshness and Good quality of the Product.

How do you buy ingredients (chicken, rice, spices, containers) from suppliers, and who approves the purchase?

We have our Own Suppliers, We order Bulk Order to get Special Price, Once the quality of ingredients and Others is Approves base on quality and Prices then we proceed to order. im the one who responsible at the moment of day to day operations.

How do you check expiration dates and keep track of raw stock before sending food out to the stores?

As we monitor all the items day to day and we avoid to overstock to make sure our product is Always Freshly cook. We put labels on the items with production date and Expiration date

Do you write down what you cooked and what ingredients you used in a logbook or Excel sheet?

Yes, as of the moment one person only know the secret Recipe of our ChicknPastil.

How do you know when it is time to buy more supplies, and how do you decide how much to order?

we have have Daily inventory and we track daily the operations.

Where do you track current stock levels for raw ingredients, cooked batches, and packaging materials?

we have a little commisary , everything is arrange and organize , so we can easily track what is running Low items and out of stock items.

Branch Distribution & Inventory Transfer

How does a branch ask the main kitchen for more stock, and how long does it take for food to arrive?

they send the request form in the evening, in the morning we distributed the item request accordingly in each branches.

When food arrives at a branch, how do staff inspect and count it to make sure nothing is missing or spoiled?

They double check the items, count, check if the item requested is correct.

What do you do when food gets damaged, spilled, or spoiled during transfer, and how is that loss recorded?

We have wastages Reports , but very rare it happens to have spoilage or wastages.

How often do you count remaining stock at the branch, and what happens if the counts do not match your records?

We make sure each every shift the counts is correct ang handed over correctly to the next shifts, once they recieve correct, they are the responsible for any shortages.

Branch Sales & Counter Operations

Can you walk me through what happens when a customer orders, from payment to handing over the food?

Once the order is taken, the start preparing the food item and Get the Payment through Cash or Gcash

How do cashiers record each sale (paper receipt, cash register/POS, or logbook)?

Throuh sales book reports.

How do you handle add-ons (extra rice, extra pastil oil, boiled eggs, drinks) and track stock deductions for them?

We recorded also in the book reports,.

How do delivery app orders (e.g., Grab, Foodpanda) fit into your daily counter routine?

We dont have at moment with any Food Delivery Services,

What details do you record/write down for walk-in and online/phone orders? How do you process each type?

We records their Respective Name, Contact Numbers and Messenger Apps.

How does the cashier tell the kitchen crew what to prepare, and how do you track if an order is done or cancelled?

We have small Size of store ,no need to tell, Usually one or two staff is duty in Shift

How do you process and record different payment methods like cash or GCash/e-wallets?

We recorded Everything in sales Books report, so if the end of the shift they do cash and gcash reconcillation.

How many orders do you usually get in a day or week, and when do you experience peak sales surges?

Sales depend in Location.

Who works during a shift, and what is each person's main job?

Each of everyone is Equal in Term of Responsibilities and duties.

End-of-Day Reconciliation & Finance

How do cashiers count and check the cash drawer at the end of the day against recorded sales?

Yes they tally the opening Balance, stock in and stock out and the Closing Balance

How is daily cash handed over or deposited, and how do you keep proof of that deposit?

they Remitted daily in our Main Branch

How long does it take management to combine sales numbers from all branches to see total daily sales and profit?

We do Separately the sales report and Profit so we can find out which one is profitable branch and which one is not profitable so we can do something marketing to improve the not performing well branch.

What logs or notebooks do you check regularly (like daily sales or waste logs), and how often do you review them?

Im hands on daily in the operatio on all areas of business(purchasing, quality control, cost control, Financial Control, and Human Resource)

App Opportunities & Bottlenecks

What single daily manual task takes up the most time for staff?

Our main task is to make sure the food quality is best, service is best.

What single daily manual task takes up the most time for staff?

Preparation of cooked Rice, challenging forecast for customer.

If staff got a simple phone app tomorrow, which 2 main features would save them the most stress?

communication apps a

Which records or logs are most tedious to fill out and easiest for people to mess up or lose?

Sales Reports

What part of the daily workflow causes the biggest headache, and what fix would help the business most?

The scheduling of the staff, since all of them are mostly students
